

SUPPLEMENT DATED JULY 18, 2023

TO THE

OFFICIAL STATEMENT DATED JULY 13, 2023

RELATING TO

\$1,693,072

JOHNSON CITY CENTRAL SCHOOL DISTRICT

BROOME COUNTY, NEW YORK

GENERAL OBLIGATIONS

\$1,693,072 Bond Anticipation Notes, 2023

(the "Notes")

Dated: August 3, 2023

Due: August 2, 2024

PLEASE BE ADVISED that the "MARKET AND RISK FACTORS" section is hereby revised to read as follows:

MARKET AND RISK FACTORS

There are various forms of risk associated with investing in the Notes. The following is a discussion of certain events that could affect the risk of investing in the Notes. In addition to the events cited herein, there are other potential risk factors that an investor must consider. In order to make an informed investment decision, an investor should be thoroughly familiar with the entire Official Statement, including its appendices, as well as all areas of potential risk.

The financial condition of the School District as well as the market for the Notes could be affected by a variety of factors, some of which are beyond the School District's control. There can be no assurance that adverse events in the State or in other jurisdictions in the country, including, for example, the seeking by a municipality or large taxable property owner of remedies pursuant to the Federal Bankruptcy Code or otherwise, will not occur which might affect the market price of and the market for the Notes. If a significant default or other financial crisis should occur in the affairs of the State or any of its agencies or political subdivisions thereby further impairing the acceptability of obligations issued by borrowers within the State, both the ability of the School District to arrange for additional borrowings, and the market for and market value of outstanding debt obligations, including the Notes, could be adversely affected.

The School District is dependent in part on financial assistance from the State. However, if the State should experience difficulty in borrowing funds in anticipation of the receipt of State taxes in order to pay State aid to municipalities and school districts in the State, including the School District, in any year, the School District may be affected by a delay, until sufficient taxes have been received by the State to make State aid payments to the School District. In several recent years, the School District has received delayed payments of State aid which resulted from the State's delay in adopting its budget and appropriating State aid to municipalities and school districts, and consequent delay in State borrowing to finance such appropriations. (See also "THE SCHOOL DISTRICT – State Aid").

The enactment of the Tax Levy Limitation Law, which imposes a tax levy limitation upon municipalities, school districts and fire districts in the State, including the School District could have an impact upon the market price of the Notes. See "TAX LEVY LIMITATION LAW" herein.

Future legislative proposals, if enacted into law, or clarification of the Code or court decisions may cause interest on the Notes to be subject, directly or indirectly, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent the beneficial owners of the Notes from realizing the full current benefit of the tax status of such interest. No assurance can be given that pending or future legislation or amendments to the Code, if enacted into law, or any proposed legislation or amendments to the Code, will not adversely affect the value of the Notes, or the tax status of interest on the Notes. See "TAX MATTERS" herein.

On July 7, 2023, a principal of the District's middle school was charged with felony luring a child and attempted rape in the third degree in connection with suspicious behavior involving a minor. The charges were brought by the County's Sheriff's Office after an investigation. The principal has been suspended by the District and is not allowed on District property. As of the date of this Supplement, the District has not received any notices of claim; however, the effects, financial and otherwise, if any, of such events on the District are unknown as of the date of this Supplement and can not be predicted with any level of certainty at this time.

Cybersecurity. The District, like many other public and private entities, relies on a large and complex technology environment to conduct its operations. As such, it may face multiple cybersecurity threats including, but not limited to, hacking, viruses, malware and other attacks on computer or other sensitive digital systems and networks. There can be no assurances that any security and operational control measures implemented by the District will be completely successful to guard against and prevent cyber threats and attacks. The result of any such attacks could impact business operations and/or digital networks and systems and the costs of remedying any such damage could be significant.
